Degree Planner Instructions: As you complete your degree, record the grades for each course in the appropriate sections below, noting that some sections may have additional instructions on how to record grades for courses that satisfy more than one requirement. Complete the course 'Type' column using the following codes: **EN** – course completed at WCU; **TR** - course completed at an institution other than WCU; **EX** – course completed by an exam such as CLEP; or **IP** – course in which the student is currently enrolled.

Instrumentation, AAS

This program prepares students for careers in an entry-level maintenance, instrument and electrical positions within chemical plants, refineries, pipeline transmission companies, and industrial manufacturing. Students will understand the basics in theory, physics, fundamentals, and safety in the field of instrumentation (including the measurement of flow, level, and maintenance), and electricity (including AC and DC circuits).

First Semester

Course Name	Credits	Substitute	Term	Grade	Type
ELPT 1411 - Basic Electrical Theory	Credits: 4				
COSC 1301 - Introduction to Computing	Credits: 3				
INCR 1402 - Physics of Instrumentation ***(Fall Only)***	Credits: 4				
INTC 1358 - Flow and Measurement Calibration ***(Fall Only)***	Credits: 3				
Choose One:					
MATH 1314 - College Algebra	Credits: 3				
or					
MATH 1332 - Contemporary Mathematics (Quantitative Reasoning)	Credits: 3				

Semester Hours: 17

Second Semester

Course Name	Credits	Substitute	Term	Grade	Type
PTAC 2314 - Principles of Quality	Credits: 3				
INCR 1442 - Measurement and Process Control Theory ***(Spring Only)***	Credits: 4				
INTC 1301 - Principles of Industrial Measurements I	Credits: 3				
Choose one:					
PTAC 1408 - Safety, Health and Environment I	Credits: 4				
or					
OSHT 2401 - OSHA Regulations	Credits: 4				

Semester Hours: 14

Third Semester

Course Name	Credits	Substitute	Term	Grade	Type
CPMT 2402 - Home Technology Integration	Credits: 4				
CETT 1415 - Digital Applications ***(Fall Only)***	Credits: 4				
INTC 1457 - AC/DC Motor Control ***(Fall Only)***	Credits: 4				
ENGL 1301 - Composition I	Credits: 3				

Semester Hours: 15

Fourth Semester

Course Name	Credits	Substitute	Term	Grade	Type
Choose One:					
(Capstone Course) CETT 1441 - Solid State Circuits ***(Spring Only)***	Credits: 4				
or					
(Capstone Course) INTC 2480 - Cooperative Education - Instrumentation Technology/Technician	Credits: 4				
RBTC 1401 - Programmable Logic Controllers ***(Spring Only)***	Credits: 4				
• Social and Behavioral Sciences **Credits: 3** *Choose One:* • Creative Arts **Credits: 3** *or* • Language, Philosophy, and Culture **Credits: 3**					

Semester Hours: 14

Total Program Hours: 60

General Electives: Use this section to record general elective courses needed to complete the degree.
